

YOUR OUTSOURCE LABORATORIES PARTNER FOR *FULL CONTOUR ZIRCONIA*

Our focus is to help you save on overhead costs while still providing the best products.

We use the latest CAD/CAM digital processes including 3Shape scanner, Lava™ Rowland® and Amman Girrbach milling machines.

CADD Zr-40 full contour has the strength of a monolithic zirconia restoration, is virtually fracture-proof and requires minimal stain and glaze.

CADD Zr-40 full contour is nearly indistinguishable from natural dentition and provides unrivaled esthetics.
